FACE MASKS

GF • FC Revitalising Mask

50 | 200 ml

Face mask that stimulates and activates the correct functioning of the skin, increasing the synthesis of its essential elements, in order to treat the skin ageing signs efficiently.

Active ingredients: growth factors, acetyl glutamine, fermented folic acid (vitamin B9) and vitamin E.

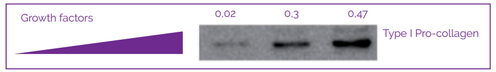

Hyaluronic Acid Face Mask

50 | 200 ml

Face mask based on a high concentration of pure hyaluronic acid* that, due to its complete formulation, allows restoring and maintaining the natural balance of skin moisturisation, nutrition, firmness and volume.

Active ingredients: pure hyaluronic acid*, vitamin E, aloe vera and grapeseed oil.

Collagen biosynthesis: increase of 1 type pro-collagen in fibroblasts.

PERSONAL CARE

Serums

Concentrate of Native Collagen

50 ml

Face concentrate based on native collagen.

Active ingredients: native collagen, organic silicon, vitamins E and F, extracts of Spilanthes acmella and Chondrus crispus.

(*) Natural and organic. Certificate by Ecocert.

Glycan Concentrate

14x4 ml

Face concentrate in emulsion able to guarantee optimal levels of moisturisation.

Active ingredients: proteoglycans, collagen, pure hyaluronic acid* and elastin.

Sealuronic Gel

14x4 ml

Pure hyaluronic acid* gel at 1% and sea water for comprehensive application (eye and lip contour, face, neck and neckline), that fights the signs of skin ageing.

Hydration and Repair

Eye Care Cream SPF 10

20 ml

Cream suitable for the skin care of periocular area with sun protection factor SPF 10.

Active ingredients: pure hyaluronic acid*, butcher's broom, bilberry, bisabolol and vitamins (E, A y F).

Skin Total Solution

50 | 200 ml

Revitalizing, regenerative, nourishing and moisturising face cream, with sun protection factor, SPF 15.

Active ingredients: pure hyaluronic acid*, growth factors, collagen, elastin, vitamins (A, C, E and F) and bioactive minerals (silicon, zinc, copper, iron and magnesium).

Hydroxybionic Gel

30 ml

pH: 4.5 - 5.0

Cell renovative oil free face gel which is specially suitable for combination, oily or acne prone skins.

Active ingredients: lactobionic, glycolic and salicylic acids, witch hazel water, bisabolol, ubiquinone (coenzyme Q10) and vitamins E and F.

(*) Natural and organic. Certificate by Ecocert.

Retinol Advanced

30 ml

Triple-action retinoid facial gel-cream formulated with an exclusive Retinol + Retinal + Bakuchiol complex, designed to promote skin renewal, improve overall skin quality, and target the main visible signs of photoageing.
Its formula combines next-generation retinoid active ingredients with hydrating, antioxidant, and soothing ingredients to promote excellent skin tolerance, delivering intensive renewing action with a more comfortable application.
Particularly indicated as an at-home treatment to enhance and maintain the results of anti-ageing, depigmenting, and anti-acne aesthetic medical procedures.

Active ingredients: encapsulated retinol, encapsulated retinal, bakuchiol, hyaluronic acid, bisabolol, chamomile extract.

Lip Repair

6 ml

Intensive action biphasic serum, specially indicated for the treatment and overall care of the lips.

Active ingredients: CBD (cannabidiol); pure hyaluronic acid (*); a combination of three vegetable oils: hemp, jojoba and olive; Vitamin E; bisabolol.

Hyaluronic Acid Body Serum

500 ml

Body serum with a light texture and physiological or cutaneous pH (5.0 - 5.5) with a comprehensive and intensive repairing effect, it supplies softness, regenerate and revitalising for a completely renewed skin.

Active ingredients: pure hyaluronic acid (*); growth factors; bakuchiol; vegetable squalene; vitamins C, E, F and B-group.

(*) Natural and organic. Certificate by Ecocert.

TEGODER
COSMETICS

CLINICAL COSMETICS

CONCEPT AND MAIN FEATURES

With the most advanced and innovative dermatological techniques as a reference, TEGODER COSMETICS has created TDC Clinik, a wide range of medical-aesthetic cosmetics which have been exclusively selected for the professionals of that sector.
TDC Clinik is a cosmeceutical line especially indicated to be applied in medical aesthetic treatments such as radiofrequency, laser, IPL, fillers, infiltrations, virtual mesotherapy, chemical peeling, Dermapunt microneedling, etc., and also for the daily skin care and maintenance, allowing strengthening and extending their effects.

LAST GENERATION ACTIVE INGREDIENTS

Growth factors: (EGF, IGF-I, Acidic FGF, Basic FGF and VEGF) – sh-oligopeptide-1, sh-oligopeptide-2, sh-polypeptide-11, sh-polypeptide-1, sh-polypeptide-9.
Cell activating molecules obtained by bacterial bio-fermentation (biotechnology) with high ability to generate and regenerate tissues.

Pre-and postsynaptic Botox-like peptides: pentapeptide-18, acetyl hexapeptide-8 and acetyl hexapeptide-30.
Three active ingredients resulting from the molecular cosmetic that offer a new strategy to fight expression lines and wrinkles.

Bioactive minerals: (silicon, zinc, copper, iron and magnesium) - (saccharomyces / silicon ferment, saccharomyces / zinc ferment, saccharomyces / copper ferment, saccharomyces / iron ferment, saccharomyces / magnesium ferment).
Essential and bioavailable oligoelements that are catalysers of many skin enzymatic reactions.

SKIN CLEANSING AND PREPARATION

HA Face Cleanser — 200 | 400 ml

Face cleansing emulsion for day and night use.

Active ingredients: pure hyaluronic acid*, vitamins (A, E, F) and bioactive minerals (silicon, zinc, copper, iron and magnesium).

(*) Natural and organic. Certificate by Ecocert.

Revitalising Lotion — 200 | 400 ml

Repairing and revitalizing face lotion for day and night.

Active ingredients: pure hyaluronic acid*, growth factors, sea water, vitamins (A, E and B_5) and bioactive minerals (silicon, zinc, copper, iron and magnesium).

Enzyblock Lotion — 200 | 400 ml

Repairing and brightening facial lotion formulated with a combination of organic acids, hyaluronic acid, and soothing and antioxidant active ingredients that promote skin renewal, help improve overall skin quality, and support the preservation of extracellular matrix integrity. Particularly indicated as a complement to aesthetic medical procedures to enhance and prolong their results.

Active ingredients: Enzyblock Complex (mandelic, succinic, and tartaric acids); Hyaluronic Acid; Soothing complex: combination of chamomile extract and bisabolol; Vitamin E.

Enzyblock Peel — 5 x 10 ml

Highly tolerable professional chemical peel formulated with a combination of PHAs, AHAs, EnzyBlock Complex, niacinamide, and soothing active ingredients. Promotes progressive skin renewal, helping to improve skin texture, tone uniformity, and radiance. Its excellent cosmetic profile makes it suitable for introductory protocols, sensitive skin, and as a complement to facial aesthetic medical procedures.

Active ingredients: Lactobionic Acid (PHA), EnzyBlock Complex (mandelic, succinic, and tartaric acids), Niacinamide, Soothing Complex (chamomile extract and bisabolol).

Neutra Solution — 100 ml

Solution based on sodium bicarbonate and sodium lactate aimed to neutralise chemical gel peels. It is enriched with active ingredients, such as hyaluronic acid, chmomile and glycerine, which help to recover the optimal physiological conditions of the skin, after the application of a chemical peel.

Ingredientes activos: sodium bicarbonate, sodium lactate, hyaluronic acid, Camomile extract, Glycerine.

(*) Natural and organic. Certificate by Ecocert.

BIOLOGICAL CONCENTRATES

Fullerene C60 Concentrate — 14x4 ml

Fullerene C60 Concentrate is an innovative antiageing face concentrate, which provides an outstanding comprehensive and multiprotective repairing effect. It protects against blue light, protects the skin against digital ageing and provides an intensive antioxidant activity. It is suitable for treatment of all skin types. It has a suitable formulation to be applied using micro-needling devices and it is compatible with those techniques based on radiofrequency.

Active ingredients: Fullerene, bakuchiol, growth factors, pure hyaluronic acid*, stabilised vitamin C and a B-group vitamin complex (B_1, B_2, B_3, B_5, B_6, B_7, B_8 and B_{12}).
Active molecule by which its discoverers were awarded the Nobel Chemical Prize.

B-Like Concentrate — 30 ml

Face concentrate that combines three different mechanisms of action, pre- and postsynaptic.

Active ingredients: three Botox-like effect peptides (two presynaptic and one postsynaptic) and pure hyaluronic acid*.

GF • FC Revitalising Concentrate — 30 ml

Face concentrate that stimulates and reactivates the correct functioning of the skin increasing the synthesis of its essential elements.

Active ingredients: growth factors, pure hyaluronic acid*, acetyl glutamine and fermented folic acid (vitamin B9).

Microfensine Concentrate — 30 ml

A professional concentrate that induces the expression of ß-defensins, based on AD-3A (Acetyl Dipeptide-3 Aminohexanoate) and enriched with pure hyaluronic acid*.

(*) Natural and organic. Certificate by Ecocert.

Exo-Fullbiotic Concentrate — 30 ml

Facial concentrate with a Glass Skin effect, formulated with Fullbiotics, plant-derived exosomes, and hyaluronic acid. Its innovative formulation helps support the balance of the skin microbiome, improves overall skin quality, and provides intensive hydration for a more radiant, even, and translucent-looking complexion.

Active ingredients: Fullbiotics, ginseng-derived plant exosomes, telocyte-protecting bioferment, hyaluronic acid.

Enzymelablock Concentrate — 30 ml

Enzymelablock Concentrate is an intensive brightening and depigmenting facial concentrate formulated with a combination of depigmenting, skin-renewing, and antioxidant active ingredients that help reduce the appearance of visible hyperpigmentation, improve skin tone uniformity, and help prevent the formation of new dark spots. Its formulation also helps improve overall skin quality and address signs associated with photoageing.

Active ingredients: Tranexamic Acid, Niacinamide, Alpha-Arbutin, Acetyl Glycyl Beta-Alanine, HEPES (Hydroxyethylpiperazine Ethane Sulfonic Acid), EnzyBlock Complex (mandelic, succinic, and tartaric acids), Allantoin.

Vita C Intensive Concentrate — 22x2 ml

Face concentrate based on vitamin C that restores and keeps your skin vitality and brightness.

Active ingredients: stabilised vitamin C, encapsulated vegetable stem cells (pennywort and apple), organic silicon.

Vita K Intensive Concentrate — 12x2 ml

Face and body concentrate based on vitamin K that improves microcirculatory alterations: oedema, dark circles, redness, bruises, etc.

Active ingredients: vitamin K, Rosa Damascena, avocado, Chondrus crispus.

(*) Natural and organic. Certificate by Ecocert.
